The Brobots have had a long day, and it is time to recharge and enter sleep. Buzz and Crash have no problem falling asleep, but Beep's got a case of the ups. Luckily, Buzz knows just the trick: scare Beep with a monster mask! Does it work? Affirmative. No more flick-ups. But Beep still can't sleep. He's afraid of monsters! Plan of action: turn on the lights. Problem solved? Negative. Now it's too bright. Block the light with blankets? Too hot. Add a fan? Too loud. Can the Brobots power down before Beep has a breakdown? This hilarious bedtime story explores the universal experience of siblings settling in for the night—with a robot twist. Winnie the Witch is very pleased when she turns her cardboard cutout into a real one. Beep, beep! But when the naughty robot takes Winnie's wand, things start to get totally out of control. It's up to Wilbur, Winnie's lovable witch, to stop the magical mayhem and save the day. Oh no, Blippo is sick! Can Beep help? Blippo and Beep are robot buddies who like to have fun together. But when Blippo gets a cold, it makes him feel funny, and it puts him in a bad mood. Luckily, his good friend Beep is there to help him feel better! Fans of the best-selling *Dinosaur Love Tacos* will devour Adam Rubin and Daniel Salmieri's newest story, a hilarious picture book about robots that magically transforms into a supermetal ROBO-BOOK. FACT: Robots are awesome. They have lasers for eyes, rockets for feet, and supercomputers for brains! Plus, robots never have to eat steamed beans or take baths, or go to bed. If only there were some sort of

"Robo-Sauce" that turned squishy little humans into giant awesome robots now there is. Giggle at the irreverent humor, gasp at the ingenious fold-out surprise ending, and gather the whole family to enjoy a unique story about the power of imagination. It's picture book technology the likes of which humans have never seen! One day, a boy and a robot meet in the woods. They play. They have fun. But when Bot gets switched off, Boy thinks he's sick. The usual remedies—applesauce, reading a story—don't help, so Boy tucks the sick Bot and falls asleep. Bot is worried when he powers on and finds his friend powerless. He takes Boy home with him and tries all his remedies: oil, reading an instruction manual. Nothing revives the malfunctioning Boy! Can the Inventor help fix him? Using the perfect blend of sweetness and humor, this story of an adorable robot will win the hearts of the very youngest readers. This is a great how to draw book for kids! In this beginners drawing book, every mini drawing lesson is broken down into easy to follow step by step instructions. Let your kids learn to draw books for kids that draw: ? back to her planet, and after she sees how WALL-E cares for her, she falls  
with him too. For fans of Todd Parr and Oliver Jeffers comes this debut pic  
book about a boy and his robot friend from the creator of the popular crow  
sourced comic blog, explodingdog.com For a little boy who's always dreamed  
having his own robot, actually getting one isn't what he expected at all. The  
can't fly, or swim, or even talk. All he does is beep beep beep like a toy. But  
robot does have some hidden talents—and one of them is being a great fri  
this unexpectedly poignant story about adjusting expectations, Sam Brown  
that while no one is perfect, a good friend sure comes close. From bestsell  
Carter comes a favorite new robot twist on the classic children's song tha  
life. If you're a robot and you know it clap your hands, jump and beep, fly a  
shoot laser beams out of your eyes! It's the classic version of If You're Happ  
You Know It as you've never seen (or heard!) it before. Sing along to the fr  
downloadable song by the dynamic Musical Robot team, then turn the page  
David Carter's clever pop-ups show the robot characters going through all  
call-out movements, from clapping hands to shooting laser beams out of y  
Includes: - A free downloadable song from the Musical Robot team! - Pull-t  
turn-wheels, and pop-ups! - Eye-catching foil cover! Beep, Boop, Beep, zap!  
Playing robots is super fun, But what happens when one robot doesn't wa  
fair? Through an exciting, colorful battle (which ends just before recess is  
Ryan and Marcel learn that the best robots and the strongest heroes are a  
those who are kind to their friends. Jada and Anthony can't get Rusty the  
beep. With the help of their friend Taylor, they set out to find Rusty's voice  
Blippo is sick! Can Beep help? Blippo and Beep are robot buddies who like t  
fun together. But when Blippo gets a cold, it makes him feel funny, and it p  
in a bad mood. Luckily, his good friend Beep is there to help him feel better  
Exciting, easy-to-read books are the stepping stone a young reader needs

the gap between being a beginner and being fluent. Blending pop culture iconography with the existential threat of technological creations turning on their creators, *Emotional Robots* is a compulsively readable graphic novella set in a too presciently depicted world in which advanced robots successfully compete with humans—in sports, music, and art—in pursuit of emotional intelligence. Despite the robots' technological triumph, humans abandon Earth in search of a new planet to call home. But what happens to the robots when newer, faster, smarter robots replace them? What happens when civil unrest grows between robot generations? An astute take on the human condition and the illusory promise of technology, *Emotional Robots* is a captivating fable for the modern age. With wit and dark humor, it artfully tackles universal themes urgently relevant to our time, asking readers the question faced by each new generation of humans (and robots): Is history condemned to repeat itself? Knock-knock. Who's there? Beep! Blippo and Beep are a pair of silly robot friends. While Blippo is glib and natured and eager, Beep is a bit more serious and practical. But when they share knock-knock jokes with each other, Blippo doesn't really understand how they work, and Beep begins to run out of patience! Exciting, easy-to-read book is the stepping stone a young reader needs to bridge the gap between being a beginner and being fluent. Owen Bishop introduces, through hands-on project work, the mechanics, electronics and programming involved in practical robot design-and-build. The use of the PIC microcontroller throughout provides a painless introduction to programming whilst harnessing the power of a highly popular microcontroller used by students and design engineers worldwide. This is a book for first-time robot builders, advanced builders wanting to know more about programming robots and students in Further and Higher Education tackling microcontroller-based practical work. They will all find this book a unique and exciting source of projects, ideas and techniques, to be combined into a wide range of fascinating robots. · Full step-by-step instructions for 5 complete self-build robots · Introduces key techniques in electronics, programming and construction for robust robots that work first time · Illustrations, close-up photographs and lively, readable text make this a fun and informative guide for novice and experienced robot builders Poor Robot just can't seem to listen. All he wants to go fast. Will Robot manage to slow down before disaster strikes? Your child will love the beautiful bright pictures in this bedtime story. This is a book about PATIENCE and learning to SLOW DOWN. This early reader is for ages 3-5 if you read to them and ages 6-8 all on their own or with a little help from an adult. This children's book is great for a quick bedtime story, and your child should so

able to read this beginner reader all on their own! Don't miss out on the fun of your copy today! Real twinkling lights make this bedtime board book of a classic lullaby the perfect read for any sleepy child. Adapted from the classic lullaby Twinkle, Twinkle, Little Star captures the gentle magic of bedtime. With a brand new ending, the song encourages children to fall asleep peacefully beneath the stars. Florence Weiser's soft, soothing illustrations depict an array of animals and babies at their bedtimes, inspiring a calming nighttime atmosphere. This board book is complete with twinkling lights that make each page glow while parents and children settle in for their nightly routine. Families will delight in this adorable new take on a familiar lullaby and enjoy the tranquility of its sleepy, rhyming verses.

**BEEP BEEP! Robots!** - 30 illustrations for your child to color in! Also features a page where they can draw their own robot - what will they come up with?

Clink was a state-of-the-art robot with the dazzling ability to make toast and play baseball at the same time. But that was many years ago. Now kids want snazzier robots to do things like play baseball and bake cookies. So day after day, Clink sits on the sidelines and sadly watches as his friends leave with their new owners. He almost gives up on ever finding a home—until the day Clink spies a boy who just might be the right one for him. . . . From #1 New York Times bestselling author Kelly DiPucchio and new talent Matthew Myers comes a funny and heartwarming story that lovers of Corduroy will adore. Beep is a robot who hungers for adventure. Bah is a goat who wants to stay out of trouble. When Bah discovers a single sheep, he knows there's only one thing to do: find its match! Together, Beep and Bah embark on a winding journey that takes them up high hills and into the deep ocean. On the way, they'll meet monkeys, whales, and angry bears—but will they find the missing link?

"Bring this robot to life by lifting flaps on each page until the book has been completely transformed"-- A boy who has long dreamed of having adventures with a robot finds one in his backyard, and though it is not all he expected, it promises to do something more. A playful robot bedtime story, illustrated by Caldecott Honor artist John Rocco! Quiet at last. Not a peep. Three little robots are... BEEP! BEEP! BEEP! When his three rambunctious robots give every possible excuse not to go to bed, what's a little boy to do? With a fun refrain that will have readers of all ages chanting along, here's a book that kids will be begging to read every night before bed. WALL-E, a lonely robot, falls in love with EVE, who has come to Earth looking for plant life to take back to her planet, and after she sees how WALL-E cares for her, she falls in love with him too. Poor Robot just can't seem to slow down. What he wants is to go fast. Will Robot manage to slow down before disaster strikes? Your children will love the beautiful bright pictures in this bedtime story. N

beloved author Joan Holub, Hello Robots! is a fun, playful board book about robots and sequencing! Hello Buzz. Hello Beep. Hello robots fast asleep. Wake up! Get dressed, robots! Perfect for reading out loud, Joan Holub's hilarious text and Chris Dickason's lively illustrations will have little ones learning and laughing as they try to help sleepy robots complete their morning routine in the correct order. Using a clever, interactive approach to first concepts, the Hello board book series introduces important "next-step" concepts like sequencing in a hilariously engaging way. This interactive baby book with 6 sounds and sparkly LED lights will keep little picture book fans entertained as they follow the story of a robot who has lost his noisy sounds! Press Baby Robot's button to hear him make a whirr, beep, buzz sound and to switch on his twinkly lights. Then name his body parts, touch his circle button to hear him click, bleep, and ping, and follow him as he has a very busy day. But after all the fun, Baby Robot feels tired. His lights aren't working, and he's lost his noisy sounds! Baby Robot wishes he could have cool lights like his toy car, sound amazing like the phone, and play a beautiful lullaby like his musical box. Luckily, Big Robot knows what to do. Baby Robot needs a rest! The next day Baby Robot's battery is recharged, and he lights up, beeps, buzzes, pings, and plays a tune. Baby Robot feels great! Baby Robot: Buzz!, Light-up Story has simple text that helps babies and toddlers learn that all need a rest to be at our best. The book has different shaped sound buttons to help little ones to learn shapes. In addition, touching the buttons to turn on sounds and lights helps children develop fine motor skills, as well as stimulate their senses, and teaching them cause-and-effect, which encourages logical thinking. With so much for children to learn and lots to delight them, Baby Robot: A Beep-buzz, Light-up Story is a unique, early learning, light and sound book that is a great sensory toy for babies and toddlers, and perfect for anyone who wants an imaginative, novelty robot book for kids. With 3 replaceable button cell batteries. This large print internet password organizer is great for everyone.
