Clive was happy in his life until he met Sarah Kirby-Burgess and they seduced each other... Now, poor Clive's lost his job - and he's having to struggle in a crazy world of prejudice and jobsearch... Please have paper, envelopes, printer ink, and a pleasing telephone manner - and expect to drop everything at a moment's notice, oh, and you will get wet... And spare a thought for the now pregnant Sarah, insecure in a long term relationship with 'Jase' her long term partner, and having to cope with Clive's dad: Dan, who's convinced "she stole Clive's innocence." It's not surprising that manic bosses, blinkered

businessmen, sword-yielding maniacs, and inappropriate flirtations are conspiring to topple the House of Stone... Please wipe your feet and remove unsightly clothes pegs, take a deep breath - you won't regret it... Well, Sarah might... The chief creative officer of Sony Music presents a candid assessment of his life and the past half-century of popular music from an insider's perspective, tracing his work with a wide array of stars and personalities. In his insightful collection of poems Clive James looks back over an extraordinarily rich life with a clear-eyed and unflinching

honesty. There are regrets, but no trace of self-pity in these verses, which - for all their open dealings with death and illness - are primarily a celebration of what is treasurable and memorable in our time here. Again and again, James reminds us that he is not only a poet of effortless wit and lyric accomplishment: he is also an immensely wise one, who delights in using poetic form to bring a razor-sharp focus to his thought. Miraculously, these poems see James writing with his insight and energy not only undiminished but positively charged by his situation: Sentenced to Life

represents a career high point from one of the greatest literary intelligences of the age. A deep dive into the creative world and personal archive of the master of horror Clive Barker, from *Hellraiser* and *Candyman* to today "I've seen the future of horror . . . and his name is Clive Barker." In the mid-1980s, Stephen King inducted a young English novelist into the world of great genre writers, and since then, this genius creator has only continued to expand his field of activity. Created by his two most loyal collaborators, Phil and Sarah Stokes, *Clive Barker's Dark Worlds* is the first book to shed light

on the massive scope of Barker's creative work. With the help of Barker himself, this book contains exclusive insight from those who have worked with him creatively and professionally, alongside analyses of his works and comments over four decades from industry contemporaries and friends such as Ramsey Campbell, Quentin Tarantino, Neil Gaiman, China Miéville, Peter Straub, Armistead Maupin, J.G. Ballard, Wes Craven, and many more. The book spans Barker's world, highlighting classics such as the character Pinhead, an icon in the pantheon of horror cinema; the *Hellraiser* series of

ten films and a forthcoming HBO miniseries; and the cult films *Nightbreed* and *Candyman*, the latter of which was rebooted as a Jordan Peele production in 2021. In literature, Barker has written the horror anthology series *Books of Blood*, which was recently adapted by Hulu, as well as numerous fantasy sagas. *Weaveworld* and *The Great and Secret Show* have become instant genre classics, and *Abarat* is a beloved bestselling series for young adults. In the world of comics, Barker has partnered with major publishers such as Marvel and BOOM! Studios. This tireless creator has also dipped his

toes into the worlds of toys, video games, and art, and his incredible collection of paintings, drawings, and photographs have been exhibited in galleries over the world. media includes Tatler, House & Garden, Country Life, The English Home, and Telegraph Luxury Online- In the US, the media includes Town & Country, Architectural Digest Online, The AD Aesthete Podcast, Air Mail, and Departures This book is a sumptuously produced journey around 12 privately-owned country houses, asking what it is like to live in such places today. What role do they play in the 21st century? For many years after the Second World War, the country house was struggling. Now a new generation of young owners, often with children, has taken over.

They're finding innovative ways to live in these ancient, fragile and poetic places. While they treasure the history and beauty of the houses, they're also adapting and enhancing them for a modern era. Old Homes, New Life is a behind-the-scenes account of today's aristocracy, as they reinvent the country house way of life. Each family does this in its own way, maintaining the tradition of individualism, even eccentricity, which is so much associated with country houses. Dylan Thomas's superb yet intimate photographs capture both the inhabitants of these houses and the spaces they occupy

- from State dining to family kitchen, walled garden to attic. This feast for the eyes is accompanied by an equally mouth-watering text by Clive Aslet, based on interviews with family members and his long experience of the subject through his years as editor of Country Life. The result is an exclusive tour of a dozen spectacular homes.

"Bloomsbury on the Mediterranean," is how Vanessa Bell described France in a letter to her sister, Virginia Woolf. Remarking on the vivifying effect of Cassis, Woolf herself said, "I will take my mind out of its iron cage and let it swim.... Complete heaven, I

think it." Yet until now there has never been a book that focused on the profound influence of France on the Bloomsbury group. In Bloomsbury and France: Art and Friends, Mary Ann Caws and Sarah Bird Wright reveal the crucial importance of the Bloomsbury group's frequent sojourns to France, the artists and writers they met there, and the liberating effect of the country itself. Drawing upon many previously unpublished letters, memoirs, and photographs, the book illuminates the artistic development of Virginia and Leonard Woolf, Clive Bell, David Garnett, E. M. Forster, Lytton

Strachey, Dora Carrington, and others. The authors cover all aspects of the Bloomsbury experience in France, from the specific influence of French painting on the work of Roger Fry, Duncan Grant, and Vanessa Bell, to the heady atmosphere of the medieval Cistercian Abbaye de Pontigny, the celebrated meeting place of French intellectuals where Lytton Strachey, Julian Bell, and Charles Mauron mingled with writers and critics, to the relationships between the Bloomsbury group and Henri Matisse, Pablo Picasso, Gertrude Stein, Andre Gide, Jean Marchand, and many others. Caws

and Wright argue that Bloomsbury would have been very different without France, that France was their anti-England, a culture in which their eccentricities and aesthetic experiments could flower. This remarkable study offers a rich new perspective on perhaps the most creative group of artists and friends in the 20th century. "A loving and breezy set of essays" on today's most addictive TV shows from "an incisive and hilarious critic" (Slate). Television is not what it once was. Award-winning author and critic Clive James spent decades covering the medium, and witnessed a radical

change in content, format, and programming, and in the very manner in which TV is watched. Here he examines this unique cultural revolution, providing a brilliant, eminently entertaining analysis of many of television's most notable twenty-first-century accomplishments and their not always subtle impact on modern society—including such acclaimed serial dramas as *Breaking Bad*, *The West Wing*, *Mad Men*, and *The Sopranos* and the comedy *30 Rock*. With intelligence and wit, James explores a television landscape expanded by cable and broadband and

profoundly altered by the advent of Netflix, Amazon, and other cord-cutting platforms that have helped to usher in a golden age of unabashed binge-watching. "James loves television, he loves the winding stories it tells and that we share them together. Play All is a late love letter to the medium of our lives."—Sunday Times "Large-brained and largehearted, and written with astonishing energy."—The New York Times Book Review "Witty and insightful musing on popular and critically acclaimed series of the past two decades."—Publishers Weekly Much has been written about

Tommy Mottola, one of the most powerful, visionary, and successful executives in the history of the music industry. He discovered, developed and launched the careers of many superstars, including Mariah Carey, Celine Dion, Shakira, Jennifer Lopez and Gloria Estefan, and is credited with creating the "Latin Explosion." He has had the privilege of working alongside Bruce Springsteen, Billy Joel, Bob Dylan, Beyonce, Michael Jackson, Barbara Streisand, the Dixie Chicks, Pearl Jam, Aerosmith, Tony Bennett, and Ozzy Osbourne, amongst other music giants. This is his story--a

story of the modern music industry, from Elvis to the iPod--through the eyes of the man who made much of it happen. HITMAKER recounts how a kid from the Bronx--and a college dropout--became one of the music industry's most creative and controversial CEOs. For the first time, Tommy lays bare the facts behind the most sensational aspects of his life, such as being married to and developing the career of Mariah Carey, managing Michael Jackson's emotional ups and downs, and the power struggle with his onetime boss and mentor Walter Yetnikoff. HITMAKER will take you inside this

world of power, money, and fame as he recounts the fascinating dealings with countless icons, and what it was like to be at the top when the business suddenly changed. Tommy's story is one that will never be duplicated--and here it is, in his own voice, for the first time. The real-life story of Robert Clive would be judged as wildly implausible if it came from the pen of a novelist. Clive of India was one of the most extraordinary and colorful figures Britain ever produced. The founder of Britain's Indian empire, he was also Britain's first great guerrilla fighter by the age of twenty-seven,

conqueror of Bengal at thirty-one, and avenging angel of righteousness against the greed of his own fellow-countrymen at forty-one. In his later life Parliament brought him under painful scrutiny and he ended up one of the most hated men in Britain. He died violently under still-mysterious circumstances just before his fiftieth birthday. The story of Clive can be viewed on several levels: as a spirited military adventure by a man who defied death many times, who withstood the greatest siege in British military history, and conspired to force one of the most absolute and

cruellest monarchs on earth off his throne; as the morality tale of a penniless young man who became the sole ruler of a huge empire, ended up as one of the richest men in Britain and was then brought to account and driven to despair; or as the story of a plundering early poacher-turned-gamekeeper who sought to establish a moral and legal order amidst slaughter and greed. Clive today lies buried in an unknown grave in an obscure corner of rural Shropshire, a reflection of the controversy he aroused in his lifetime and that still surrounds his legacy and the manner of his

death. In this lively and revealing study Robert Harvey illuminates Clive's life's journey from the green fields surrounding Market Drayton through his adventures in India, his drive to success and self-destruction, to his vicious and premature death, by suicide or murder. to look at how creativity can be used for living life and living it well. Within its pages you will discover that what creativity is, goes beyond the scope of general definitions and terms such as 'artist'. You will discover that creativity is what you are. That it, and you, are woven from the same cloth; the same fabric from which the very universe is made. It is an invitation to create a life and to allow life to create you. An exciting, unpredictable story of financial intrigue, intensely atmospheric and absorbing, with humour and romance. Clive Pitt is the talented banker cherry-

picked for a career in the City of London. While handling a merger, started by a significant hedge fund, he notices massive fraud is involved. Despite holding a trusted, lucrative position in the firm, Clive decides to turn whistleblower and risk everything. Soon Pitt understands that powerful figures have conspired to disgrace and ruin him, in both his professional and his personal life. Finding himself a pariah, with his memory wiped, family and friendships destroyed, Clive has to piece together the events that lead to this terrible downfall. Only one colleague is

prepared to help him, a clever, courageous female trader, with whom he originally conspired to expose the deal. His conflict against brutal wealth and power becomes a matter of survival for both sides. He has to save his reputation, fill in the lost events of a 'missing' year; even while ruthless vested interests seek to conclude their deal and to destroy him. "One Man Crazy!" The Life and Death of Colin Clive is the first full biography of this brilliant, hypersensitive actor. The fascinating—and eerily timely—tale of the forgotten Depression-era psychologists who launched the

modern science of childhood development. "Doomed from birth" was how psychologist Harold Skeels described two toddler girls at the Iowa Soldiers' Orphans' Home in Davenport, Iowa, in 1934. Their IQ scores, added together, totaled just 81. Following prevailing eugenic beliefs of the times, Skeels and his colleague Marie Skodak assumed that the girls had inherited their parents' low intelligence and were therefore unfit for adoption. The girls were sent to an institution for the "feebleminded" to be cared for by "moron" women. To Skeels and Skodak's astonishment,

under the women's care, the children's IQ scores became normal. Now considered one of the most important scientific findings of the twentieth century, the discovery that environment shapes children's intelligence was also one of the most fiercely contested—and its origin story has never been told. In *The Orphans of Davenport*, psychologist and esteemed historian Marilyn Brookwood chronicles how a band of young psychologists in 1930s Iowa shattered the nature-versus-nurture debate and overthrew long-accepted racist and classist views of childhood

development. Transporting readers to a rural Iowa devastated by dust storms and economic collapse, Brookwood reveals just how profoundly unlikely it was for this breakthrough to come from the Iowa Child Welfare Research Station. Funded by the University of Iowa and the Rockefeller Foundation, and modeled on America's experimental agricultural stations, the Iowa Station was virtually unknown, a backwater compared to the renowned psychology faculties of Stanford, Harvard, and Princeton. Despite the challenges they faced, the Iowa psychologists

replicated increased intelligence in thirteen more "retarded" children. When Skeels published their incredible work, America's leading psychologists—eugenicists all—attacked and condemned his conclusions. The loudest critic was Lewis M. Terman, who advocated for forced sterilization of low-intelligence women and whose own widely accepted IQ test was threatened by the Iowa research. Terman and his opponents insisted that intelligence was hereditary, and their prestige ensured that the research would be ignored for decades. Remarkably, it was not until the 1960s

that a new generation of psychologists accepted environment's role in intelligence and helped launch the modern field of developmental neuroscience.. Drawing on prodigious archival research, Brookwood reclaims the Iowa researchers as intrepid heroes and movingly recounts the stories of the orphans themselves, many of whom later credited the psychologists with giving them the opportunity to forge successful lives. A radiant story of the power and promise of science to better the lives of us all, *The Orphans of Davenport* unearths an essential history

at a moment when race science is dangerously resurgent. Clive James read, learned and recited poetry aloud for most of his life. In the last book he completed before he died, he offers a selection of his favourite poems and a personal commentary on each. In the last months of his life, his vision impaired by surgery and unable to read, Clive James explored the treasure-house of his mind: the poems he knew best, so good that he didn't just remember them, he found them impossible to forget. *The Fire of Joy* is the record of this final journey of recollection and celebration. Enthralled by

poetry all his life, James knew hundreds of poems by heart. In offering this selection of his favourites, a succession of poems from the sixteenth century to the present, his aim is to inspire you to discover and to learn, and perhaps even to speak poetry aloud. In his highly personal anthology, James offers a commentary on each of the eighty or so poems: sometimes a historical or critical note on the poem or its author, sometimes a technical point about the poem's construction from someone who was himself a poet, sometimes a personal anecdote about the role the

poem played in his own life. Whether you're familiar with a poem or not - whether you're familiar with poetry in general or not - these chatty, unpretentious, often tender mini-essays convey the joy of James's enthusiasm and the benefit of his knowledge. His urgent wish was to share with a new generation what he himself had loved. This is a book to be read cover to cover or dipped into: either way it generously opens up a world for our delight. 'Clive James's joyous farewell . . . from Thomas Wyatt to Carol Ann Duffy' - Guardian, Best Poetry of 2020 The authorized biography of the

man who created The Books of Blood and Weaveworld. Barker: a contemporary myth-maker, explorer of our darkest instincts and ultimate fears - the writer who, more than any other contemporary figure, has shaped our nightmares through diverse media. Novelist, playwright, scriptwriter and director, he is a master at twisting the mundane to make it fantastic and frightening. In this detailed biography, enabled through unprecedented access to Barker and his closest friends and family, Douglas Winter reveals at last what haunts the man who haunts us all.

"[A] collection of Clive James's essays on a variety of literary topics . . . This is sanity, humor and acuity in the face of death" (The Wall Street Journal). In 2010, Clive James was diagnosed with terminal leukemia. Deciding that "if you don't know the exact moment when the lights will go out, you might as well read until they do," James moved his library to his Cambridge house, where he would "live, read, and perhaps even write." James is the award-winning author of dozens of works of literary criticism, poetry, and history, and this volume contains his reflections on what may well be his last

reading list. A look at some of James's old favorites as well as some of his recent discoveries, this book also offers a revealing look at the author himself, sharing his evocative musings on literature and family, and on living and dying. As thoughtful and erudite as the works of Alberto Manguel, and as moving and inspiring as Randy Pausch's *The Last Lecture* and Will Schwalbe's *The End of Your Life Book Club*, this valediction to James's lifelong engagement with the written word is a captivating valentine from one of the great literary minds of our time. "These essays and poems are death-

haunted but radiant with the felt experience of what it means to be alive, even when mortally sick, especially when mortally sick." —Financial Times "Latest Readings is a plain demonstration that Mr. James remains as learned and as funny as any critic on earth." —The New York Times A spellbinding exploration of the human capacity to imagine the future Our ability to think about the future is one of the most powerful tools at our disposal. In *The Invention of Tomorrow*, cognitive scientists Thomas Suddendorf, Jonathan Redshaw, and Adam Bulley argue that its emergence

transformed humans from unremarkable primates to creatures that hold the destiny of the planet in their hands. Drawing on their own cutting-edge research, the authors break down the science of foresight, showing us where it comes from, how it works, and how it made our world. Journeying through biology, psychology, history, and culture, they show that thinking ahead is at the heart of human nature—even if we often get it terribly wrong. Incisive and expansive, *The Invention of Tomorrow* offers a fresh perspective on the human tale that shows how our species clawed its

way to control the future. Malcolm Cowley Hart Crane's life was notoriously turbulent, persistently nonconformist, and tragically short. This new biography presents for the first time a full, frank portrait of the real Hart Crane, a poet attractive both for his flamboyance and passion for life, and for the magnificent sonorities of his work. 18 illustrations.
