"I'm convinced that Howard Gardner was right when he suggested that all leaders need chances to retreat to the mountains. I hope this book gives you metaphorical mountains. I hope that *Leading Well* allows you to step back from the hurly burly of school leadership, to see far horizons, to breathe a new kind of air, and to return home with new energy and vision. And more than that, I hope the book helps you give the teachers and children in your care their own metaphorical mountains; because in the end, good leaders create leaders." -Lucy Calkins In *Leading Well: Building Schoolwide Excellence in Reading and Writing*, Lucy Calkins draws on the transformative work that she and her colleagues at the Teachers College Reading and Writing Project have done in partnership with school leaders over the last thirty years. Travel to any corner of this country, inquire about the schools that are winning acclaim for their joyous and rigorous schoolwide literacy work, and you're apt to find yourself hearing about the results of the remarkable community of practice that has taken root around reading and writing workshop instruction. This book, like the work of the Teachers College Reading and Writing Project itself, is deeply research-based and principled, while also absolutely practical and real-world tested. *Leading Well* will provide you with the inspiration and energy you need to rally your teachers to outgrow their own best teaching practices and tackle predictable challenges. Additionally, *Leading Well* will remind you that you are part of a vibrant community of practice. You'll learn not only from Lucy Calkins and from contributing authors, Mary Ehrenworth and Laurie Pessah, but also from talented, tenacious, and imaginative school leaders who are creating new horizons for the world of education. Topics addressed include: Planning for Literacy Reform

Supporting teachers in implementing reading and writing workshops Tapping the insight and talents of teachers, and rallying key individuals to join your cabinet of literacy leaders Honing your vision for reform and communicating it to the whole school Leading through influence rather than compliance Lifting the Level of Teaching Defining the goals for your teachers and the priorities for students Establishing the structures and culture that support these goals and priorities Protecting independent reading and writing time for students and planning time for teachers Identifying ways to coach and nurture teachers' skills in the specific methods of instruction of the Units of Study Supporting teachers' continuing professional development Building Structures across the School and Community Setting up feedback cycles through instructional rounds and targeted conversations Putting in place rituals and traditions to support your school community's unique character Addressing resistance with radical candor and learning from it Staying the course while integrating new initiatives Engaging parents and building your own professional learning community The book is for school leaders who've invited their teachers to join them in the exhilarating work of adopting a dynamic, rigorous, student-centered language arts curriculum. It is for school leaders who have taken on the challenge of transforming their whole school into a place where everyone's potential, for learning and for growth, is sky high. Lucy Calkins knows one of the most powerful ways to support good writers: clear, purposeful writing conferences. "If the writing workshop is always changing, always haphazard, children remain pawns waiting for their teacher's agenda. For this reason and others, I think it is so important for each day's workshop to have a clear, simple structure. Children should know what to expect. This allows them to carry on; it frees the teacher from choreographing activities and allows time for listening. How we structure the workshop is less important than that we structure it." " -Lucy Calkins Learn how to take your students from pictorial story telling into fluent writing and how Lucy Calkins and her colleagues launch a rigorous and responsive primary writing workshop. Through 2 foundational books-"The Nuts and Bolts of Teaching Writing" and "Launching the Writing Workshop"-and eight online video clips, Lucy and her colleagues provide the strategies, lesson plans, and tools you'll need to jump in and teach writing to your students in powerful, lasting ways. "The Nuts and Bolts of Teaching Writing" equips you to teach a productive, well-managed writing workshop, introduces you to the methods that underlie all writing instruction, and helps you plan a yearlong curriculum in the teaching of writing. In addition to guiding you through the classroom systems and teaching structures that are the foundation of a primary writing workshop, this comprehensive overview also includes chapters about working within developmental stages of writing, supporting English language

learners, and assessing writers. Whether you have taught in a writing workshop for years or are just learning the term, "Launching the Writing Workshop" will offer you a comprehensive plan for the first four weeks of a primary writing workshop. Lucy and Leah Mermelstein present both the precise language and pacing of their teaching and the reasoning behind it, so that you can create the same powerful experiences with your own children. Whether writers write just a few labels on items in their pictures or write paragraphs, by the end of this unit all children know that in order to write, a writer fills him or herself with an idea, plans how the text will go, and then draws and writes as best he and she can, working to make the page match the writer's vision. The eight accompanying video clips convey the inner workings of writing workshops in a variety of primary classrooms. These live-from-the-classroom video clips are supported and enhanced by an optional voice-over coaching commentary from Lucy that explains the teaching moves and strategies. Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content. "The new Units of study in phonics provide a lean and concise instructional pathway in phonics that is realistic and doable, and that taps into kids' skills and energy for tackling the fabulous challenge of learning to read and write, introduce high-leverage phonics concepts and strategies in a way that

keeps pace with students' reading and writing and helps them understand when, how, and why they can use phonics to read and write, offer delightfully fun and engaging storylines, classroom mascots, songs, chants, rhymes, and games to help students fall head over heels in love with phonics and to create a joyous community of learners, align with state-of-the-art reading and writing workshops for a coherent approach in which terminology, tools, rituals, and methods are shared in ways that benefit both teachers and kids."--provided by publisher. "In second grade, children move from a "little-kid" focus on print to a "big-kid" focus on meaning. The first unit, Second-Grade Reading Growth Spurt, teaches children to take charge of their reading, drawing on everything they know to figure out hard words, understand author's craft, and build big ideas about the books they read. Children learn that books can be their teachers in the second unit, Becoming Experts: Reading Nonfiction, in which they learn more about familiar topics and grow understanding of new topics while working on word solving, vocabulary development, and comparing and contrasting information across texts. In the third unit, Bigger Books Mean Amping Up Reading Power, children learn strategies to build three foundational reading skills--fluency, understanding figurative language, and comprehension. In the final unit for second grade, Series Book Clubs, children work within book clubs to study author's craft to understand ways authors use word choice, figurative language, punctuation, and even patterns to construct a series and evoke feelings in readers"--Pearson.com.
