**The Invention of Native American Literature** Dec 01 2020 In an original, widely researched, and accessibly written book, Robert Dale Parker helps redefine the study of Native American literature by focusing on issues of gender and literary form. Among the writers Parker highlights are Thomas King, John Joseph Mathews, D'Arcy McNickle, Leslie Marmon Silko, and Ray A. Young Bear, some of whom have previously received little scholarly attention. Parker proposes a new history of Native American literature by reinterpreting its concerns with poetry, orality, and Indian notions of authority. He also addresses representations of Indian masculinity, uncovering Native literature's recurring fascination with restless young men who have nothing to do, or

who suspect or feel pressured to believe that they have nothing to do. *The Invention of Native American Literature* reads Native writing through a wide variety of shifting historical contexts. In its commitment to historicizing Native writing and identity, Parker's work parallels developments in scholarship on other minority literatures and is sure to provoke controversy.

*African-American Literature* Dec 21 2019 A collection of eighty-five selections that exemplify the range and depth of the writing of African Americans. f.

*History* May 26 2020 This book discusses how literary writers re-envisioned species survival and racial uplift through ecological and biogeographical concepts of dispersal. It will appeal to readers interested in nineteenth-Century American literature and *Literature and the Environment*.

*The Global Remapping of American Literature* Jul 08 2021 This book charts how the cartographies of American literature as an institutional category have varied radically across different times and places. Arguing that American literature was consolidated as a distinctively nationalist entity only in the wake of the U.S. Civil War, Paul Giles identifies this formation as extending until the beginning of the Reagan presidency in 1981. He contrasts this with the more amorphous boundaries of American culture in the eighteenth century, and with ways in which conditions of globalization at the turn of the twenty-first century have reconfigured the parameters of the subject. In light of these fluctuating conceptions of space, Giles suggests new ways of understanding the shifting territory of American literary history. ranging from Cotton Mather to David Foster Wallace, and from Henry Wadsworth Longfellow to Zora Neale Hurston. Giles considers why European medievalism and Native American prehistory were crucial to classic nineteenth-century authors such as Emerson, Hawthorne, and Melville. He discusses how twentieth-century technological innovations, such as air travel, affected representations of the national domain in the texts of F. Scott Fitzgerald

and Gertrude Stein. And he analyzes how regional projections of the South and the Pacific Northwest helped to shape the work of writers such as William Gilmore Simms, José Martí, Elizabeth Bishop, and William Gibson. Bringing together literary analysis, political history, and cultural geography, *The Global Remapping of American Literature* reorients the subject for the transnational era.

**American Literature and the Experience of Vietnam** Feb 15 2022 A discussion of the literature of the war and a study of literary consciousness relative to the larger process of cultural myth-making.

**American Literature in Transition, 1950-1960** Jul 28 2020 *American Literature in Transition, 1950-1960* explores the under-recognized complexity and variety of 1950s American literature by focalizing discussions through a series of keywords and formats that encourage readers to draw fresh connections among literary form and concepts, institutions, cultures, and social phenomena important to the decade. The first section draws attention to the relationship between literature and cultural phenomena that were new to the 1950s. The second section demonstrates the range of subject positions important in the 1950s, but still not visible in many accounts of the era. The third section explores key literary schools or movements associated with the decade, and explains how and why they developed at this particular cultural moment. The final section focuses on specific forms or genres that grew to special prominence during the 1950s. Taken together, the chapters in the four sections not only encourage us to rethink familiar texts and figures in new lights, but they also propose new archives for future study of the decade.

*American Literature in Context* Dec 13 2021 First published between 1982 and 1983, this series examines the peculiarly American cultural context out of which the nation's literature has developed. Covering the years from 1900 to 1930, this fourth volume of *American Literature in Context* focuses on how American literature dealt with the challenges of the period including the First World War and the stock market crash. It examines key writers of the time such as Henry James, Gertrude Stein, Ezra Pound, F Scott Fitzgerald and Eugene O'Neill who, unlike many

Americans who sought escape, confronted reality, providing a rich and varied literature that reflects these turbulent years. This book will be of interest to those studying American literature and American studies.

*A Journey Through American Literature* Nov 24 2022 A spirited and lively introduction to American literature, this book acquaints readers with the key authors, works, and events in the nation's rich and eclectic literary tradition.

**The Intimacy of Paper in Early and Nineteenth-century American Literature**

Mar 24 2020 The true scale of paper production in America from 1690 through the end of the nineteenth century was staggering, with a range of parties participating in different ways, from farmers growing flax to textile workers weaving cloth and from housewives saving rags to peddlers collecting them. Making a bold case for the importance of printing and paper technology in the study of early American literature, Jonathan Senchyne presents archival evidence of the effects of this very visible process on American writers, such as Anne Bradstreet, Herman Melville, Lydia Sigourney, William Wells Brown, and other lesser-known figures. *The Intimacy of Paper in Early and Nineteenth-Century American Literature* reveals that book history and literary studies are mutually constitutive and proposes a new literary periodization based on materiality and paper production. In unpacking this history and connecting it to cultural and literary representations, Senchyne also explores how the textuality of paper has been used to make social and political claims about gender, labor, and race.

*African American Literature in Transition, 1800-1830: Volume 2, 1800-1830* Feb 03 2021 African American literature in the years between 1800 and 1830 emerged from significant transitions in the cultural, technological, and political circulation of ideas. Transformations included increased numbers of Black organizations, shifts in the physical mobility of Black peoples, expanded circulation of abolitionist and Black

newsprint as well as greater production of Black authored texts and images. The perpetuation of slavery in the early American republic meant that many people of African descent conveyed experiences of bondage or promoted abolition in complex ways, relying on a diverse array of print and illustrative forms. Accordingly, this volume takes a thematic approach to African American literature from 1800 to 1830, exploring Black organizational life before 1830, movement and mobility in African American literature, and print culture in circulation, illustration, and the narrative form.

*War and American Literature* Nov 19 2019 This book examines representations of war throughout American literary history, providing a firm grounding in established criticism and opening up new lines of inquiry. Readers will find accessible yet sophisticated essays that lay out key questions and scholarship in the field. *War and American Literature* provides a comprehensive synthesis of the literature and scholarship of US war writing, illuminates how themes, texts, and authors resonate across time and wars, and provides multiple contexts in which texts and a war's literature can be framed. By focusing on American war writing, from the wars with the Native Americans and the Revolutionary War to the recent wars in Iraq and Afghanistan, this volume illuminates the unique role representations of war have in the US imagination.

**A History of American Literature and Culture of the First World War** Sep 10 2021 In the years of and around the First World War, American poets, fiction writers, and dramatists came to the forefront of

the international movement we call Modernism. At the same time a vast amount of non- and anti-Modernist culture was produced, mostly supporting, but also critical of, the US war effort. *A History of American Literature and Culture of the First World War* explores this fraught cultural moment, teasing out the multiple and intricate relationships between an insurgent Modernism, a still-powerful traditional culture, and a variety of cultural and social forces that interacted with and influenced them. Including genre studies, focused analyses of important wartime movements and groups, and broad historical assessments of the significance of the war as prosecuted by the United States on the world stage, this book presents original essays defining the state of scholarship on the American culture of the First World War.

**Timelines of American Literature** Aug 09 2021 What is our definition of "modernism if we imagine it stretching from 1865 to 1965 instead of 1890 to 1945? How does the captivity narrative change when we consider it as a contemporary, not just a "colonial, genre? What does the course of American literature look like set against the backdrop of federal denials of Native sovereignty or housing policies that exacerbated segregation? Filled with challenges to scholars, inspirations for teachers (anchored by an appendix of syllabi), and entry points for students, *Timelines of American Literature* gathers some of the most exciting new work in the field to showcase the revelatory potential of fresh thinking about how we organize the literary past.

*Seeking the Region in American Literature and Culture* Oct 11 2021 Regionalism often evokes provinciality and an affiliation with minor literary genres, but Robert Jackson shows that region is an integral part of American identity, providing grounding for major independent voices. Jackson offers a new critical model of region that contributes to literary and cultural study across a wide range of topics. He addresses American literature since the Civil War with particular attention to Mark Twain, William Faulkner, Flannery O'Connor, and Toni Morrison. In advancing their own diverse aesthetic and social agendas -- reactionary and progressive, theological and secular, gender-based, race-based, and above all, dissident -- these writers, Jackson argues, articulate some of

the most perceptive and innovative expressions of the American region in the literary history of the United States. According to Jackson, the region transcends both rigidly defined spatial categories -- the South of slavery, the North of freedom, the West of unlimited possibility -- and derivative cultural connotations of local color to reveal subtle and powerful insights. He provides a regional reading of Twain's greatest novel, *The Adventures of Huckleberry Finn*, and a meaningful new interpretation of the work and its place in the American canon. He explores Faulkner's obsession with regional identity and places the Mississippian's work in problematic relation to the Depression-era Nashville Agrarian movement. O'Connor, searching for a critical vocabulary to confront mainstream American literature, religion, and gender, transforms the region from a hothouse of sentimentality into a sharp, deadly weapon in her short fiction. Morrison's brilliant appropriation of region enables her to fashion an aesthetic that is both race-conscious and endowed with revisionist agency; through the region she imagines a new grounding for American identity. Jackson illuminates the importance of rethinking long-established assumptions and demonstrates the vast potential of the region in critical considerations of American literature and culture. Even as he devotes significant attention to realism, modernism, southern literature, and African American literature, he speaks to a wide range of fields in American Cultural studies.

**The Sketch, the Tale, and the Beginnings of American Literature** Sep 22 2022 Accounts of the rise of American literature often start in the 1850s with a cluster of "great American novels"—Hawthorne's *The Scarlet Letter*, Melville's *Moby-Dick* and Stowe's *Uncle Tom's Cabin*. But these great works did not spring fully formed from the heads of their creators. All three relied on conventions of short fiction built up during the "culture of beginnings," the three decades following the War of 1812 when public figures glorified the American past and called for a patriotic national literature. Decentering the novel as the favored form of early nineteenth-century national literature, Lydia Fash repositions the sketch and the tale at the center of accounts of American literary history, revealing how cultural forces shaped short fiction that was subsequently

mined for these celebrated midcentury novels and for the first novel published by an African American. In the shorter works of writers such as Washington Irving, Catharine Sedgwick, Edgar Allan Poe, and Lydia Maria Child, among others, the aesthetic of brevity enabled the beginning idea of a story to take the outsized importance fitted to the culture of beginnings. Fash argues that these short forms, with their ethnic exclusions and narrative innovations, coached readers on how to think about the United States' past and the nature of narrative time itself. Combining history, print history, and literary criticism, this book treats short fiction as a vital site for debate over what it meant to be American, thereby offering a new account of the birth of a self-consciously national literary tradition.

**Writing the Nation** Mar 16 2022 Writing the Nation: A Concise Introduction to American Literature 1865 to Present, is designed to continue the preservation of famous American literary works in the minds of college students.

*The Cambridge History of American Literature: Volume 1, 1590-1820* Jan 02 2021 Volume I of The Cambridge History of American Literature was originally published in 1997, and covers the colonial and early national periods and discusses the work of a diverse assemblage of authors, from Renaissance explorers and Puritan theocrats to Revolutionary pamphleteers and poets and novelists of the new republic. Addressing those characteristics that render the texts distinctively American while placing the literature in an international perspective, the contributors offer a compelling new evaluation of both the literary importance of early American history and the historical value of early American literature.

**A Companion to American Literature** May 18 2022 A comprehensive, chronological overview of American literature in three scholarly and authoritative volumes A Companion to American Literature traces the history and development of American literature from its early origins in Native American oral tradition to 21st century digital literature. [Apocalypse in American Literature and Culture](#) May 06 2021 The idea of America has always encouraged apocalyptic visions. The 'American Dream' has not only imagined the prospect of material prosperity; it has also imagined the end of the world. 'Final forecasts' constitute one of America's oldest literary genres, extending from the eschatological theology of the New England Puritans to the revolutionary discourse of the early republic, the emancipatory rhetoric of the Civil War, the

anxious fantasies of the atomic age, and the doomsday digital media of today. For those studying the history of America, renditions of the apocalypse are simply unavoidable. This book brings together two dozen essays by prominent scholars that explore the meanings of apocalypse across different periods, regions, genres, registers, modes, and traditions of American literature and culture. It locates the logic and rhetoric of apocalypse at the very core of American literary history.

*Literature in America* Dec 25 2022 A history of American literature examining major works and authors

*The Cambridge Companion to the Literature of the American Renaissance* Nov 12 2021 The American Renaissance has been a foundational concept in American literary history for nearly a century. The phrase connotes a period, as well as an event, an iconic turning point in the growth of a national literature and a canon of texts that would shape American fiction, poetry, and oratory for generations. F. O. Matthiessen coined the term in 1941 to describe the years 1850–1855, which saw the publications of major writings by Hawthorne, Melville, Emerson, Thoreau, and Whitman. This Companion takes up the concept of the American Renaissance and explores its origins, meaning, and

longevity. Essays by distinguished scholars move chronologically from the formative reading of American Renaissance authors to the careers of major figures ignored by Matthiessen, including Stowe, Douglass, Harper, and Longfellow. The volume uses the best of current literary studies, from digital humanities to psychoanalytic theory, to illuminate an era that reaches far beyond the Civil War and continues to shape our understanding of American literature.

*The City in American Literature and Culture* Apr 17 2022 The city's 'Americanness' has been disputed throughout US history. Pronounced dead in the late twentieth century, cities have enjoyed a renaissance in the twenty-first. Engaging the history of urban promise and struggle as represented in literature, film, and visual arts, and drawing on work in the social sciences, *The City in American Literature and Culture* examines the large and local forces that shape urban space and city life and the street-level activity that remakes culture and identities as it contests injustice and separation. The first two sections examine a range of city spaces and lives; the final section brings the city into conversation with Marxist geography, critical race studies, trauma theory, slow/systemic violence, security theory, posthumanism, and critical regionalism, with a coda on city literature and democracy.

**Sound Recording Technology and American Literature** Jun 26 2020 Based on the author's dissertation (doctoral)--Columbia University, 2013.

*American Literature, American Culture* Oct 23 2022 *American Literature, American Culture* is the first comprehensive anthology of American literary criticism to appear in many years and the first collection to bring together the tradition of American literary criticism as cultural critique. This unique anthology assembles reviews of early works, major critical essays, excerpts from landmark studies, and the most influential examples of the criticism practiced today. The selections address the dominant questions in the American literary tradition: What are the cultural responsibilities of the American writer? What are the characteristics of a national literature? Is a national literature even possible? How do gender and race affect the way we understand literature? What role does literature play in a democratic society?

Organized chronologically, the four sections of the volume gather the most vital and enduring arguments in American literary and cultural politics in each era, covering such prominent issues as American exceptionalism, the racial divide, gender, and class identity. The book pays particular attention to the historical background of contemporary debates about multiculturalism. *American Literature, American Culture* is ideal for undergraduate and graduate courses in American literature, criticism, and American Studies. It also serves as a useful supplementary text in upper-level courses in criticism. Its range proves that at every juncture of the nation's intellectual history, criticism has provided an indispensable way of determining America's most fundamental meanings.

**Translation and the Rise of Inter-American Literature** Feb 21 2020 "Should be required reading for everyone in the field of comparative literature, for it speaks to translation as interpretation and as creative transfer, and to the fact that good translators ought to be recognized for what they are: good writers. . . . Essential."--Choice "A welcome addition to the Latin Americanist's toolkit."--Adria Frizzi, University of Texas at Austin The past few years have seen an explosion of interest among U.S. readers for Latin American literature. Yet rarely do they experience such work in the original Spanish or Portuguese. Elizabeth Lowe and Earl Fitz argue that the role of the translator is an essential--and an often ignored--part of the reception process among English-language readers. Both accomplished translators in their own right, Lowe and Fitz explain how stylistic and linguistic choices made by the translator can have a profound effect on how literary works are perceived by readers

unfamiliar with a foreign language. Touching on issues of language, culture, and national identity, *Translation and the Rise of Inter-American Literature* offers a broad comparative perspective rarely found in traditional scholarship.

**What is American Literature?** Jan 26 2023 An incisive, thought-provoking, and timely meditation, at once panoramic and synoptic, on American literature for an age of xenophobia, heightened nationalism, and economic disparity. The distinguished cultural critic Ilan Stavans explores the nation's identity through the prism of its books, from the indigenous past to the early settlers, the colonial period, the age of independence, its ascendance as a global power, and its shallow, fracturing response to the COVID-19 pandemic. The central motives that make the United States a flawed experiment - its celebration of do-it-yourself individualism, its purported exceptionalism, and its constitutional government based on checks and balances - are explored through canonical works like Mark Twain's *The Adventures of Huckleberry Finn*, Walt Whitman's *Leaves of Grass*, Emily Dickinson's poetry, F. Scott Fitzgerald's *The Great Gatsby*, the work of Langston Hughes, Zora Neale Hurston, and Toni Morrison, and immigrant voices such as those of Americo Paredes, Henry Roth, Saul Bellow, Isaac Bashevis Singer, Jhumpa Lahiri, and others. This is literary criticism at its best-informed: broad-ranged yet pungent and uncompromising.

*The New American West in Literature and the Arts* Aug 29 2020 The story of the American West is that of a journey. It is the story of a movement, of a geographical and human transition, of the delineation of a route that would soon become a rooted myth. The story of the American West has similarly journeyed across boundaries, in a two-way movement, sometimes feeding the idea of that myth, sometimes challenging it. This collection of essays relates to the notion of the traveling essence of the myth of the American West from different geographical and disciplinary standpoints. The volume originates in Europe, in Spain, where the myth traveled, was received, assimilated, and re-presented. It intends to travel back to the West, in a two-way cross-cultural journey, which will hopefully contribute to the delineation

of the New—always self-renewing—American West. It includes the work of authors of both sides of the Atlantic ocean who propose a cross-cultural, transdisciplinary dialogue upon the idea, the geography and the representation of the American West.

*Gender in American Literature and Culture* Mar 04 2021 *Gender in American Literature and Culture* introduces readers to key developments in gender studies and American literary criticism. It offers nuanced readings of literary conventions and genres from early American writings to the present and moves beyond inflexible categories of masculinity and femininity that have reinforced misleading assumptions about public and private spaces, domesticity, individualism, and community. The book also demonstrates how rigid inscriptions of gender have perpetuated a legacy of violence and exclusion in the United States. Responding to a sense of 21st century cultural and political crisis, it illuminates the literary histories and cultural imaginaries that have set the stage for urgent contemporary debates.

**American Literature in the World:** Jul 20 2022 *American Literature in the World* is an innovative anthology offering a new way to understand the global forces that have shaped the making of American literature. The wide-ranging selections are structured around five interconnected nodes: war; food; work, play, and travel; religions; and human and nonhuman interfaces. Through these five categories, Wai Chee Dimock and a team of emerging scholars reveal American literature to be a complex network, informed by crosscurrents both macro and micro, with local practices intensified by international concerns. Selections include poetry from Anne Bradstreet to Jorie Graham; the fiction of Herman Melville, Gertrude Stein, and William Faulkner; Benjamin Franklin's parables; Frederick Douglass's correspondence; Theodore Roosevelt's *Rough Riders*; Langston Hughes's journalism; and excerpts from *The Autobiography of Malcolm X* as well as Octavia Butler's *Dawn*. Popular genres such as the crime novels of Raymond Chandler, the comics of Art Spiegelman, the science fiction of Philip K. Dick, and recipes from Alice B. Toklas are all featured. More recent authors include Junot Diaz, Leslie Marmon Silko, Jonathan Safran Foer, Edwidge Danticat, Gary

Shteyngart, and Jhumpa Lahiri. These selections speak to readers at all levels and invite them to try out fresh groupings and remap American literature. A continually updated interactive component at [www.amlitintheworld.yale.edu](http://www.amlitintheworld.yale.edu) complements the anthology.

**American Literature in Transition, 2000-2010** Oct 31 2020

*American Literature in Transition, 2000-2010* illuminates the dynamic transformations that occurred in American literary culture during the first decade of the twenty-first century. The volume is the first major critical collection to address the literature of the 2000s, a decade that saw dramatic changes in digital technology, economics, world affairs, and environmental awareness. Beginning with an introduction that takes stock of the period's major historical, cultural, and literary movements, the volume features accessible essays on a wide range of topics, including genre fiction, the treatment of social networking in literature, climate change fiction, the ascendancy of Amazon and online booksellers, 9/11 literature, finance and literature, and the rise of prestige television. Mapping the literary culture of a decade of promise and threat, *American Literature in Transition, 2000-2010* provides an invaluable resource on twenty-first century American literature for general readers, students, and scholars alike.
