This language file offers photocopiable activities to help Key Stage 3 students develop writing, grammar and punctuation. Using popular titles, teachers can integrate language and literature teaching as well as provide a coherent approach to grammar. This file provides support for the teacher in the form of worksheets, grammar sheets, wordlists, end-of-chapter and end-of-year tests. Think History Teaching and Learning Files include lesson plans, activity sheets and assessment activities, along with a three-part lesson structure and other tools designed to help teachers to meet students' needs. The author wrote this new edition of the most popular elementary social studies methods text on the market with the following

three goals in mind: to present the most powerful social studies content and pedagogy for children in elementary school, to offer the material in simple and accessible ways, and to write in a first person active voice. The purpose of this book is to introduce new teachers to the world of social studies teaching and learning in elementary and middle schools. Geography, history, government and the other social sciences are delivered into the palm of the new teacher's hand along with a suite of tools for bringing social studies to life in the classroom. The book is organized into three sections—the first orients the reader to the mission of social studies education to the increasingly diverse children we teach, the second concentrates on the curriculum, and the third deals with instruction, how we plan and teach this curriculum. Three central themes continue to pervade the book—democratic citizenship, diversity, and the social sciences—to ultimately encourage teachers to excite their students about closing the gap between social realities and democratic ideals. An exceptionally strong chapter on multicultural issues (Chapter 2) helps future teachers truly understand the changing demographics of the American classroom. Abridged NCSS standards and their classroom applications are found at [www.myeducationlab.com](http://www.myeducationlab.com). Think History Teaching and Learning Files provide you with the plans, the resources and the inspiration you need to incorporate strategies from the Foundation Subjects Strand into your teaching.
